Addiss Abeba, Ethiopia

Language

- English
- Amharic

Expertise

Web Development

- React.js
- Html
- python
- Css
- Node Js
- Javascript

System Development

- C++
- Java
- PHP

Experience

Projects:

Driving License Information Management System (PHP):

- Developed a driving license information management system using PHP programming language.
- Implemented CRUD operations for managing license holder data.
- Utilized MySQL database for data storage and retrieval.

Driving License Information Management System (Java):

- Replicated the driving license information management system project using Java programming language.
- Developed a full-stack application using Java for backend, MySQL for database management, and frontend components for user interaction.

Bookstore (Node.js, React.js):

- Collaborated on the development of an online bookstore using Node.js and React.js.
- Implemented features such as user authentication, book browsing, and shopping cart functionality.
- Utilized MongoDB for database management and integration with React.js frontend components.
